Auburn Graduates Contribute to Alabama and the Nation

Graduate Student Spotlight: **Travis Brown**
PHD student, Auburn University
- Developing new system for catfish cultivation
- System could drastically cut production costs for Alabama catfish farmers
- Tracking other ways to draw revenue from catfish ponds
- Leveraging technology to work for Alabama farmers

Program Spotlight: **Marriage and Family Therapy**
Auburn offers an MS in Marriage and Family Therapy.
- Operates the Auburn University Marriage and Family Therapy Center
- As part of statewide partnership with Alabama Community Healthy Marriage Initiative, helps Alabama residents build and sustain healthy marriages and relationships.
- Jointly administers millions of dollars in grant monies for research and education

Center Spotlight: **Center for Bioenergy and Bioproducts**
Unit of the Auburn University Natural Resources Management & Development Institute
- Recently awarded $4.9 million grant for research on logistics systems to harvest and transport forest biomass
- Total awards for bioenergy research over the last two years exceed $7 million
- Center looks for ways to use Alabama’s natural resources for biofuels, renewable electrical power, and high value products
- Research aimed at reducing dependence on fossil fuels, reducing greenhouse gas emissions, and bringing new jobs and sources of revenue to Alabama

Graduate Education: It’s a Great Investment

From accountancy to zoology, the universities in Alabama offer more than 500 degrees in more than 200 fields and award more than 8,000 graduate degrees annually. In fact, one out of 20 Alabamians holds a graduate or professional degree. These degree seekers and graduates contribute to our state in terms of a highly skilled workforce, increased economic contributions, hours of community service, partnerships with industry, and the funding of new discoveries.

What does it take to build a strong technology-based economy in Alabama?

The combination of 7 elements:
- Intellectual infrastructure
- Mechanisms to transfer knowledge
- Physical infrastructure
- A highly skilled technical workforce
- Sources of venture capital
- Quality of life
- Entrepreneurial culture

Building Alabama’s Economic Infrastructure

All seven elements depend on Alabama’s strong commitment to graduate education and the vital research dollars that those elements bring to our state.

We’re Training Alabama Citizens for the Requirements of the Alabama Economy

Total Graduate students in Alabama: 27,949
- From AL: 17,320 (62%)
- From elsewhere: 10,629 (38%)
  - Adjoining states: 4,135 (15%)
  - Non-adjoining states: 3,306 (12%)
  - Non US citizen: 3,188 (11%)

(Both Masters and Doctoral Students)

Alabama Commission on Higher Education data: 2008

Academic R&D Expenditures per $1 million of GDP

Having an Advanced Degree means Higher Pay and Prosperity

Average annual earnings of adults ages 25 or older
